

Course Notice #1

Please note the following:

- (a) Leonard-Jones potentials; slated to be handled in Lecture #4, 10/01/07, have been deleted from the syllabus. These will not be part of the Chem 440/540 syllabus.
- (b) Lecture #13, on Monday, 10/22; presently labeled as a make-up class; will now handle the kinetic theory of gases (Chapter 27).

Please read ahead of the professor whenever you can. The lectures will be much easier after that.
